Subject: Include indigenous communities sovereignty in Article 6

It is absolutely critical that you include indigenous nations in article 6. We as humanity need to protect these sovereign nations with irreplaceable ancient wisdom that will help humanity overcome the climate crisis and heal Mother Nature. Capitalism will continue to encroach and greed will destroy these lands and communities. Indigenous people have suffered long enough!

Article 6 of the #ParisAccords always had a fatal flaw. It didn't include Indigenous NATIONS! We can fix it, but we have to ACT FAST.

Indigenous nations are sovereign nations. They have international rights under UNDRIP (2007) to engage freely in economic activities (Article 20), to pursue economic development (Articles 21 & 23), and to exercise rights to own, use, develop and control their lands, territories and resources (Article 26). This establishes a right of Indigenous nations to trade directly, OR ABSTAIN FROM TRADING under Article 6 of the Paris Agreement, as the rightful owners of mitigation outcomes that occur on their territories
