

GLOBAL DIALOGUE ON
THE IMPACTS OF THE IMPLEMENTATION OF RESPONSE MEASURES 2024

EVIDENCE-BASED APPROACHES AND HOLISTIC STRATEGIES
TO MAXIMIZE CO-BENEFITS AND
MINIMIZE NEGATIVE IMPACTS OF IMPLEMENTING NDCs

ACCRA, GHANA, 9 – 10 SEPTEMBER 2024

United Nations
Climate Change Secretariat

SESSION 1

Understanding multifaceted economic, social and environmental impacts of climate change policies and actions

BREAKOUT GROUP 3

Interlinkages and cross sectoral impacts of climate change policies

Guiding questions

- What are the key interlinkages between climate change policies and various sectors such as energy, agriculture, and transportation?
 - What are the primary cross-sectoral impacts of climate change mitigation and adaptation policies?
 - How would you address cross sectoral impacts of climate change policies and actions?
 - What metrics are used to assess the alignment of climate policies with broader sustainable development goals?
-

SESSION 2
Measurement and verification of
impacts of implementing NDCs

WORLD CAFÉ DISCUSSION

Measurement and verification of impacts of implementing NDCs

Guiding questions

- What are the key performance indicators to be tracked over time to evaluate the success and effectiveness of the climate change policies?
 - What are the best methods for evaluating the social, economic and environmental impacts of climate policies, particularly on vulnerable populations and economies?
 - How can data collection and analysis be improved to better measure and verify the impacts of climate policies and actions?
 - How can continuous monitoring and evaluation be implemented to track the effectiveness of climate policies over time, and to maximize positive and minimize negative impacts?
-

SESSION 3

Strategies for maximizing co-benefits and minimizing negative impacts in the design and implementation of NDCs

BREAKOUT GROUP 3

Communicating co-benefits and adverse impacts

Guiding questions

- What are the most effective strategies for communicating the co-benefits of climate policies to diverse stakeholder groups, including the general public, businesses, and policymakers?
 - How can potential adverse impacts of policies be transparently communicated without undermining public support or causing unnecessary alarm?
 - To what extent have the co-benefits and adverse impacts been reported in the national communication and Biennial transparency report of countries?
-

SESSION 4
Support needs for
use of tools and methodologies

WORLD CAFÉ DISCUSSION

Support needs for use of tools and methodologies

Guiding questions

- What are the support needs in the use of tools and methodologies?
 - How can UNFCCC process and constituted bodies such as KCI can support countries to maximize co-benefits and minimize negative impacts?
 - How can international organizations and donors better provide targeted technical support and capacity-building to countries in need?
-
