Matters relating to the forum on the impact of the implementation of response measures

Version on 16/11/2024

*This informal note has been prepared by the co-chairs under their own responsibility and has no formal status. It is an attempt by the co-chairs to capture the discussions and submissions under this agenda item at the sixty-first sessions of the subsidiary bodies. It does not represent agreement among Parties and does not prejudge further work or prevent Parties from expressing their views in the future.*

### **Report of the forum on the impact of the implementation of response measures**

*The Conference of the Parties, the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol and the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement,*

#### *Preamble*

1. Express appreciation to the Government of Ghana for hosting the first global dialogue on the impacts of the implementation of response measures, held from 9 to 10 September 2024.
2. Also express appreciation to the United Nations Development Programme for its support for the organization of the global dialogue; the Chairs of the subsidiary bodies and the secretariat for organizing the dialogue; the experts and facilitators who contributed to the event; and the Parties and observers that participated, all of whom contributed to the success of the dialogue.
3. Acknowledge the report on the global dialogue prepared by the secretariat, recognizing that it is not an exhaustive account thereof, which summarizes the discussions and presentations at the dialogue.
4. Take note of the annual report of the Katowice Committee on Impacts for 2024.<sup>1</sup>
5. Adopt the workplan of the forum on the impact of the implementation of response measures and its Katowice Committee on Impacts as contained in annex XX.
6. Take note of the estimated budgetary implications of the activities to be undertaken by the secretariat referred to in paragraphs XX above

---

<sup>1</sup> Link to KCI annual report 2024

7. Request that the actions of the secretariat called for in this decision be undertaken subject to the availability of financial resources.

**Workplan of the forum on the impact of the implementation of response measures and its Katowice Committee of Experts on the Impacts of the Implementation of Response Measures 2026–2030**

Activity number	Activity	Estimated timeline for implementation by	Responsible actor	Modalities	Outputs
a	Consideration of the KCI annual report by the forum on the impact of the implementation of response measures (decisions 13/ CP.28, 4/CMP.18, 19/CMA.5, annex I, para. 5(j))				
b	Prepare information for the technical assessment component of the global stocktake related to the impacts of the implementation of response measures with the processed outline in decision 23/CMA.3, paragraphs 11-12 (decision 19/CMA.1, paras. 8 and 24)				
c	Review of the functions, work programme and modalities of the forum and its KCI every five years, starting at SB 69 (2028) decisions 13/ CP.28, 4/CMP.18, 19/CMA.5, para. 6)				
d	Midterm review of this workplan starting at SB 68 and to be concluded no later than SB 69				
1	Identify, assess, analyze and build awareness on the impacts of the implementation of response measures on intergenerational equity, gender considerations and the needs of Indigenous Peoples and local communities, youth, children, persons living with disabilities and other people in vulnerable situation				
2	Exchange of experiences and best practices in approaches to increasing social acceptance of climate change policies				
3	Assess and analyze the impacts of mitigation policies implemented in order to achieve the GST outcomes, in particular those outcomes noted in paragraph 28 of decision 1/CMA.5				
4	Assess socio-economic impact of different net-zero scenarios and pathways				

Activity number	Activity	Estimated timeline for implementation by	Responsible actor	Modalities	Outputs
5	Identify, assess, analyze, and build awareness of the social, economic and environmental impacts, including impacts on biodiversity, of transitioning towards alternative energy sources				
6	Analyze, assess and report on the impacts of measures taken to combat climate change, including unilateral measures that constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on international trade, on Parties with economies most affected by the impacts of response measures, particularly developing country Parties				
7	Assessment of the ways in which KCI products have been used by Parties and other workstreams,				
8	Identify present and future climate, economic and jobs impacts, including the problem of increasing stranded assets, of the transition to zero or low carbon energy sources				
9	Build awareness of the trends and data related to the workforce transition through the implementation of response measures toward net-zero				
10	Build awareness of the impacts of robust enabling environments in facilitating economic diversification and transformation				
11	Identify and exchange experiences on ways to enhance the capacity of the workforce in emerging low- and zero emission industries, including through the UNFCCC Technology Mechanism, education, retooling workforce, training and retraining, skilling and re-skilling, in low- and zero emission development, and financial instruments that enable, mobilize and catalyse support				
12	Exchange experiences and best practices by Parties with international organizations on impact assessments				
13	Enhance public-private partnerships for climate actions to drive scalable and profitable solutions for sustainable development				

Activity number	Activity	Estimated timeline for implementation by	Responsible actor	Modalities	Outputs
14	Identify, assess, analyze, and build awareness of the impacts of transitioning towards alternative energy sources on health due to the changes in air pollution				
15	Develop a toolbox including methodologies for Parties to use in identifying, assessing and addressing the impacts of response measures, and build capacity and share experience in the use of tools and methodologies for impact assessments.				
16	Develop a case study in each of the five United Nations regions on just transition of the workforce and the creation of decent work and quality jobs and on economic diversification and transformation in order to understand the opportunities and challenges faced in their planning and implementation, and exchange and share, by Parties and experts				
17	Enhancing the understanding of Parties on evaluating the implications of implementing economic diversification and transformation strategies				
18	Develop case studies to identify and analyze the social and economic impacts of economy-wide NDCs, covering all greenhouse gases, sectors and categories.				
19	Assess socio-economics impact of the implementation of article 2.1c of the Paris agreement				
20	Institute a systematic process for reporting, assessing and analyzing of response measures to minimize the impact of the implementation of response measures, on Parties with economies affected by the impacts of response measures, in line with article 4.15 of Paris Agreement				
21	Organizing an annual high-level ministerial roundtable on impacts of implementation of response measures				

Activity number	Activity	Estimated timeline for implementation by	Responsible actor	Modalities	Outputs
22	Assess social, economic and environmental impacts of transitional fuels in the energy transition				
23	Enhance the capacity of Parties to carry out their own assessments and analyses of and produce reports on the impacts of the implementation of response measures, through training and capacity building efforts, including existing initiatives				
24	Identify and exchange experiences on technological solutions aiming at reducing climate change impacts and the creation of decent work				
25	Continue to promote the availability and use of guidelines and policy frameworks to assist Parties in promoting just transition of the workforce and the creation of decent work and quality jobs within and across sectors, including training, retooling, retraining and reskilling systems and stakeholder engagement strategies				
26	Identify impacts of response measures that do not contribute to keeping a limit of 1.5C within reach				
27	Develop a standardized methodologies for the assessment and analysis of the impacts of the implementation of response measures
